## OLDEST PRINTER OF THE WORLD WHO IS DEAD.

WORLD'S OLDEST EMPLOYEE. "CAP" JENKINS, DEAD AT 82.

Richard Jenkins, or "Cap," as he was popularly known, the oldest employee of the World and one of the oldest active printers in the United States, died yesterday from an acute attack of asthma and bronchitis. He was eighty-two years old, and he worked last Monday. "The oldest man in New York," was what all the old printers called him today. He had seen every man at work in the composing room begin his career on the World. He had been forty years in the printing business, and he was the next oldest employee of the World.

Mr. Jenkins was singularly active for a man of his age. Up to the time of his death he asked no favors because of his age, nor did he take any. He always did a full day's work.

Mr. Jenkins learned the printing trade in Ireland, and worked at it for many years in the old country before coming here. Two of his sons, Henry Jenkins, Jr., and William Jenkins, and two of his grandsons are at present employed in the World's composing room. For many years the three generations have worked side by side. Henry Jenkins has been in the employ of the paper for twenty-eight years.

## OFFER TO SHARE PROFITS IN WINDING UP CARNEGIE TRUST

The Assets Realization Company Ready to Divide All Above \$5,000,000.

It became known today that the Assets Realization Company has offered to share with the depositors of the Carnegie Trust Company any profit made above the \$5,000,000 that offered for the assets of the broken banking institution. This means that above receiving between 20 and 30 cents on the dollar, the depositors are offered a fair proportion of the profit made by the Assets Realization Company on the deal.

"I believe the proposal was to share the profits on an equal basis," said one of the five bankers called in by Superintendent of Banks O. H. Cheney to advise him with relation to the proposal.

Concerning the reported proposal of a "bankers' syndicate" to pay off the small depositors of the Carnegie in full, and the large depositors at the assets of the concern may be realized upon, a prominent banker said:

"This proposition is ridiculous upon its face. There are 12 large depositors, and each of these has quite as much right to be paid as the smallest depositor. It goes without saying that the large depositors would never consent to their elimination in favor of the small depositors, and Sup't. Cheney could not put through such a plan without the consent of the large depositors."

"Efforts are being made anew to get Andrew Carnegie to extend his philanthropy to these small depositors by making up to them the amount they would get upon a pro rata distribution of the present assets and their deposits in full."

"This act of charity on the part of Mr. Carnegie could be justified upon any method of realization upon the assets of the institution, even that of the Assets Realization Company. In which event Mr. Carnegie would rank as a last creditor of the trust company bearing his name."

The suits are a manufacturer's entire sample line, and for that reason have been acquired at an exceptionally low figure, the benefit of which economy reverts to you. ## Fine Clothes for Young Men—12.50 to 25.00

Because we have achieved such a splendid reputation as makers of fine clothes for men it does not necessarily follow that our productions for young men are equally good. The real reason why we make fine clothes for young men just as well as we make them for their seniors consists in the fact that we treat them as entirely different problems. Saks' clothes for young men have an originality of treatment all their own. They could not otherwise lay claim to that distinctiveness and individuality which for many years have distinguished them from the rank and file of similar productions. Our young men's clothes for the present season exhibit all the genius of Saks' workmanship in fit and finish, and the fabrics indicate with what care and discrimination we select them. Sizes 30 to 36.

## To-morrow, the last day before Easter Sunday, special values in Women's Fancy Tailored Suits

### SPECIAL NOTICE.

Suits purchased at Saks' during Saturday will be delivered the same evening. Any suit which requires alterations will be altered and delivered either Saturday evening or Sunday morning early. We have made special provision to take care of alterations at quick notice, so you cannot possibly be disappointed if you come to Saks'.

We respectfully insist, Madam, that you devote just a minute to this:

Style is everything to a woman—and justly so. To dress with propriety and charm is one of her important missions in life. She therefore demands above all things the fashions of the hour. And with all her traditional sagacity as a buyer of merchandise it is a fact that she never objects to pay a fair and sensible price for what she wants. But the trouble is that fair and sensible prices are the exception and not the rule. Thus, the average woman, in order to gratify her tastes and to attune her mode of dress to the caprices and inconstancies of Paris styles, is often at her wits' end to meet the exorbitant expense it involves. A charming idea comes from Paris, but the price robs it of half its charm. Madam buys it perhaps, and sacrifices in another direction—or she may go without it rather than pay unjust tribute to the gods of Fashion. Either procedure, however, is unnecessary at Saks'. We have so marshalled our facilities that new models, within a week or ten days after they emanate from Paris, are reproduced by us for just about one-half of the prices which obtain elsewhere. And we have risen to this Easter occasion by reproducing a number of the most recent Paris models of fancy tailored suits to sell at prices which will obviate any difficulty in the way of your greeting the world next Sunday in a new Paris creation. Fourth floor.

**Women's Fancy Tailored Suits,** of satin or moire, and copied from a recent Paris model. Empire back, shawl collar, trimmed with plain or black and white silk. Value 59.00. Reproduced for 35.00

## Fancy Tailored Suits—skirt and jacket silk-lined That new Paris idea exclusive at Saks' Values 60.00 and 65.00. Special at 35.00

They are still talking about it. And some have tried to copy it. But only at Saks' can you obtain the six Paris models in which the silk-lined skirt idea was originally shown. Skirt is lined or faced with peau de cygne to match lining of coat, and this silk lining makes it unnecessary to wear a silk petticoat. Our first supply of these garments was so quickly disposed of that we have had our tailors busy on another complete assortment of the entire six models especially for Easter distribution.
